## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

### A. Physical Description of Facility

The Lake Life Adult Foster Care home is a single-story modular ranch style home located along the rural northern shores of Lake Missaukee, a short distance from the village of Lake City, Michigan. The home has four single occupancy private bedrooms, one of which has a full on-suite bathroom with a tub/shower, and one double occupancy bedroom. A large bathroom, with a large walk-in shower, is available for resident use. A spacious living room, sitting room, dining area and kitchen make up the remaining areas of this newly remodeled home. The home is wheelchair accessible and has 2 approved means of egress that are equipped with ramps from the first floor.

The furnace is located in a room that is constructed of material that has a 1-hour-fire-resistance rating. An electric hot water heater is located in a small space next to the laundry room. The facility is equipped with interconnected, hardwire smoke detection system, with battery backup, which was installed by a licensed electrician and is fully operational.

On September 24, 2025, the home was inspected by the DHD #10, Missaukee County Health Department who determined that the home is in substantial compliance with applicable rules pertaining to environmental health, water supply and sewage disposal.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	13'X12'7"	163	2
2	10'6"X12'6"	131	1
3	10'6"X11'	115	1
4	10'6"X11'	115	1
5	13'X9'6"	123	1

The living, dining, and sitting room areas measure a total of 568 square feet of living space. This exceeds the minimum of 35 square feet per resident requirement.
