<b>Name of Facility:</b>	Umbrellex 2
<b>Facility Address:</b>	805 E King St Owosso, MI 48867
<b>Facility Telephone #:</b>	(586) 765-4342
<b>Capacity:</b>	4
<b>Program Type:</b>	DEVELOPMENTALLY DISABLED MENTALLY ILL

## **II. Purpose of Addendum**

The Original Licensing Study Report completed on August 20, 2020 documented that “there is another large bedroom area off the kitchen used either as a fourth resident bedroom or as an activity room for residents. Off of the back bedroom area is a small storage room that leads directly outdoors to a wooden deck.” During my onsite inspection on December 05, 2025, I observed that the room off the kitchen was being used as a resident bedroom, the small storage room is now being used as a staff office and storage room. Within the staff office, I noted that the medication cart was stored here as well. Based on the current layout, direct care staff must pass through the resident bedroom in order to enter the staff office and to obtain medications.

Consequently, the licensee needed to renovate so that resident and/or staff no longer have to pass through the resident bedroom to get to the staff office for any reason, including medication administration.

## **III. Methodology**

12/08/2025 Document Received-Modification Request to construct bedroom off of the kitchen to make it a permanent resident bedroom by removing the door to the staff office so direct care staff no longer pass through the resident bedroom to enter into the staff office. A door will be placed in the back of the bathroom to enter into the staff office.

02/02/2026 Telephone Call Received-Robert Wilson called to report construction has been completed and facility is ready for onsite inspection.

02/11/2026 Inspection Complete Onsite-An onsite inspection was completed

## **IV. Description of Findings and Conclusions**

On 02/11/2026, I conducted an inspection of the renovation. The resident bedroom located off the kitchen measured 5’6” x 11’4” + 5’6” x 8’4” with a total square footage of 110’8”. This is enough space for one resident. There is no longer a door leading from the resident bedroom into the staff office, so neither residents nor staff need to pass through the resident bedroom to get to the staff office. The licensee added a door to the resident bathroom which leads to the staff office. Compliance with the licensing act and administrative rules R400.657; (5) Traffic to and from any room must not be through a resident bedroom has been determined.

**V. Recommendation**

I recommend the approval of the renovation which brings this resident bedroom into compliance. This resident bedroom will remain a private resident bedroom.
