RE: License #: AM190418054
Investigation #: 2026A0466027
Divine Life Assisted Living of Dewitt 1

Dear Mr. Patel:

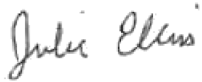
Attached is the Special Investigation Report for the above referenced facility. Due to the violations identified in the report, a written corrective action plan is required. The corrective action plan is due 15 days from the date of this letter and must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific time frames for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the responsible party and a date.

If you desire technical assistance in addressing these issues, please feel free to contact me. In any event, the corrective action plan is due within 15 days. Failure to submit an acceptable corrective action plan will result in disciplinary action.

Please review the enclosed documentation for accuracy and contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (517) 335-5985.

Sincerely,



Julie Elkins, Licensing Consultant

Effective Date:	12/03/2024
Expiration Date:	12/02/2026
Capacity:	12
Program Type:	PHYSICALLY HANDICAPPED ALZHEIMERS

	AGED TRAUMATICALLY BRAIN INJURED

II. ALLEGATION

	Violation Established?
Loose medications were found stockpiled in Resident A's room while she was hospitalized.	Yes

III. METHODOLOGY

03/13/2026	Special Investigation Intake 2026A0466027.
03/13/2026	Special Investigation Initiated – Letter licensing consultant Bridget Vermeesch.
03/19/2026	Inspection Completed On-site.
03/19/2026	APS- referral not required no suspected abuse/neglect.
05/07/2026	Exit Conference with licensee designee Achal Patel.

ALLEGATION: Loose medications were found stockpiled in Resident A's room while she was hospitalized.

INVESTIGATION:
On 03/13/2026, an anonymous Complainant reported that when the housekeeper was cleaning Resident A's room while Resident A was hospitalized, the housekeeper found over 30 loose pills stockpiled all over Resident A's room. Complainant was anonymous so no dates or additional details/information could be gathered.

On 03/13/2026, I conducted an unannounced onsite investigation and reviewed Resident A's resident record which documented that she was admitted to the facility on 09/24/2025 and she is 67 years. I reviewed Resident A's written *Assessment Plan for Adult Foster Care (AFC) Residents* which documented in the "taking medications" section of the report that Resident A's "Medications will be managed by facility." This document was completed on 9/16/2025 and signed by Guardian A1 and licensee designee Achal Patel. Resident A's record did not contain a written statement from a physician approving Resident A to self-administer medication.

I interviewed Resident A who reported that she was in the hospital from 3/4/2026-3/13/2026. Resident A reported that she heard while she was in the hospital loose medication pills were found under her bed. Resident A reported that she must have dropped the medications when she was taking them. I looked around Resident A's bedroom, including all exposed surfaces, the floor and under the bed, but I did not observe any loose pills in Resident A's bedroom.

I interviewed Lisa Guzman, housekeeper, who reported that on 03/04/2026 she found 63 pills in Resident A's room, 13 pills were found on the floor and 50 pills were found in the bedside table. Housekeeper Guzman reported that she told manager Camie Fisher about the medications that she found. Additionally, housekeeper Guzman reported that Ms. Fisher never responded to the text message she sent her, which was a video of the loose medication pills that she found in Resident A's room. Housekeeper Guzman reported that this is not the first time that she has found loose pills in Resident A's room.

I watched the video that housekeeper Guzman had which showed several medication cups with numerous pills in different colors, shapes and sizes in the bedside table drawer.

I interviewed Resident A for a second time and Resident A admitted that she has not been taking all the pills that the direct care workers administered to her. Resident A would not provide any additional information or details. Resident A allowed me to look in her nightstand table but I did not find any pills in the drawer.

I interviewed nurse Kourtney Hamill who reported that she was aware that loose pills were found in Resident A's room by housekeeping while Resident A was hospitalized. Nurse Hamill reported that this was an isolated incident.

I interviewed administrator Cheri Lynn Weaver who reported that during a staff meeting on 2/16/2026 medication administration procedures were discussed and DCWs were reminded not to leave medications with residents but to watch all residents take all medications prescribed.

I interviewed director of facility operations, Zize Gashi who reported that manager Camie Fisher is no longer employed at the facility. Ms. Gashi reported that she is working with the staff regarding medication administration and providing them education around this topic.

APPLICABLE RULE	
R 400.675	**Resident medications.**
	(3) Giving, taking, or applying of prescription medications must be supervised by a licensee, administrator, or direct care staff unless otherwise directed by an appropriately licensed health care professional in writing.

ANALYSIS:	Housekeeper Guzman reported that on 03/04/2026 she found 63 pills in Resident A’s room, 13 pills were found on the floor and 50 pills were found in the bedside table Resident A reported that she was in the hospital from 3/4/2026-3/13/2026 and learned that while she was in the hospital medications were found under her bed. Resident A admitted that she has not been taking all medications administered to her by direct care workers. Nurse Hamill reported that she was aware that loose pills were found in Resident A’s room while she was in the hospital. Resident A’s record did not contain a written statement from a physician approving Resident A to self-administer medication. Additionally, Resident A’s written assessment plan did not document that she could self-administer medications therefore a violation has been established as direct care workers that were administering medications to Resident A were not supervising her as she was able to pick and choose medications she ingested while other medications were hidden in her room.
CONCLUSION:	**VIOLATION ESTABLISHED**

IV. RECOMMENDATION

Contingent upon receipt of an acceptable corrective action plan I recommend no change in license status.
