RE: Application #:	AS730419617 REM Michigan Lawndale 3946 Lawndale Road Saginaw, MI 48603
--------------------	---

Dear Laura Hatfield-Smith:

Attached is the Original Licensing Study Report for the above referenced facility. The study has determined substantial compliance with applicable licensing statutes and administrative rules. Therefore, a temporary license with a maximum capacity of 6 is issued.

Please review the enclosed documentation for accuracy and contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (517) 643-7960.

Sincerely,

Susan Hutchinson, Licensing Consultant

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

The facility located at 3946 Lawndale Road is in Saginaw Township, Saginaw, Michigan. It was built in 1996 and sits on approximately 1 acre of land. The facility is close to restaurants, hospitals, grocery stores and other modern conveniences. The home has ample parking for residents, staff, and visitors. This facility is currently licensed as ResCare Premier Lawndale which is a small group home under License #AS73389603. ResCare Premier sold its AFC businesses to REM Michigan, who is the applicant.

Due to the facility's location, it utilizes a private sewer but a public well. The sewer was inspected by the Saginaw County Health Department on 06/24/2025 and was given an

“A” rating. The EHI report determined that the facility is in compliance with all applicable environmental health and safety rules.

The home and property located at 3946 Lawndale Rd., Saginaw, MI is owned by Behnam Emenpour. ResCare Premier Lawndale signed a lease with Behnam Emenpour on 08/01/17 and renewed the lease on 08/03/23. The lease is in effect until 07/31/28. Behnam Emenpour gave REM Michigan LLC the right to operate this home as an adult foster care facility and gave permission to Licensing and Regulatory Affairs to inspect the property.

The facility contains three bedrooms, two full bathrooms, and one-half bathroom. The first full bathroom is attached to one of the double occupancy bedrooms and is intended for those residents’ use. The second full bathroom is located off the hallway leading to the other two bedrooms and the half-bathroom is located off the living room. Both full bathrooms have the required safety bars in the shower area as well as positive-latching, non-locking-against-egress hardware.

The facility has a full kitchen, dining room, living room, quiet room, laundry room, and staff office. The quiet room will serve as a multi-purpose room for training, recreation, diversional and/or social activities. The dining room provides available seating for all residents.

There are five independent means of egress that provide free and unobstructed access leading to the outside of the facility. The facility has an open floorplan with cathedral ceilings. The medication room is a locked room off the hallway by the kitchen/living room. This facility is not wheelchair accessible and cannot accept residents who require the regular use of a wheelchair.

The furnace and hot water heater are located in the facility’s basement. A 1-3/4-inch solid core door equipped with an automatic self-closing device and positive latching hardware is located at the top of the stairs to create floor separation. On 02/16/2026, the furnace and hot water heater were inspected by Nikolai’s New Designs and were deemed fully operational. The facility is equipped with an interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational. Smoke detectors are in all sleeping areas, common use areas and the basement. At least one 5-pound multi-purpose fire extinguisher or equivalent is located on each occupied floor and in the basement.

Resident bedrooms were measured and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
West	18’7” x 18’	335	2
East	13’ x 11’7”	151	2
South	16’ x 12’	192	2

The living, dining, and quiet room areas measure a total of 763 square feet of living space. This exceeds the minimum of 35 square feet per occupant requirement.

Based on the above information, it is concluded that this facility can accommodate **six (6)** residents. It is the licensee's responsibility not to exceed the facility's licensed capacity. This facility is not wheelchair accessible and cannot accept residents who require the regular use of a wheelchair.

B. Program Description

Admission and discharge policies, program statement, refund policy, personnel policies, emergency preparedness plans, and standard procedures were reviewed and accepted as written.

The applicant intends to provide 24-hour supervision, protection and personal care to **six (6)** male or female ambulatory adults whose diagnosis is developmentally delayed and/or mentally ill in the least restrictive environment possible.

The program will promote independence and social interaction by assisting residents with cooking and cleaning skills, self-care, public safety skills, life skills training support, personal hygiene, and personal adjustment skills. The licensee will promote group activities and outings, house meetings, and will provide companionship and emotional support to combat isolation and depression. The applicant's program will also provide individualized support adapted to each resident's cognitive and emotional needs, coordination with providers and outside agencies, structured daily routines that provide stability while encouraging skill building, behavioral support planning, and facilitation of community integration based on individual abilities and goals.

If required, behavioral intervention and crisis intervention programs and personal behavior support plans will be developed and identified in the assessment plan for each resident's social, behavioral, and developmental needs and designed and implemented specific to each resident. These programs shall be implemented only by trained staff, and only with the prior approval of the resident, guardian, and the responsible agency.

The applicant intends to accept residents from county community mental health agencies as referral sources. The applicant shall provide or arrange transportation services as agreed upon in the Resident Care Agreement, but shall ensure immediate emergency transportation through use of a recognized available community service or vehicle that is owned by the licensee, administrator, or direct care staff on duty.

The applicant will make provisions for a variety of leisure and recreational equipment. It is the intent of the applicant to utilize local community resources including libraries, local museums, shopping centers, and local parks for additional entertainment and leisure activities.

C. Applicant and Administrator Qualifications

The applicant is REM Michigan, LLC which is a Foreign Limited Liability Company, established in Michigan on 12/16/2024. The applicant has acknowledged sufficient financial resources to provide for the adequate care of the residents. The applicant submitted a financial statement and established an annual budget projecting expenses and income to demonstrate the financial capability to operate this adult foster care facility.

The members of REM Michigan, LLC have submitted documentation appointing Laura Hatfield-Smith as Licensee Designee and Administrator for this facility. A licensing record clearance request was completed with no LEIN convictions recorded for Laura Hatfield-Smith. The licensee designee submitted a medical clearance with a statement from a physician documenting her good health and a baseline screening for communicable diseases dated 12/10/2025.

The licensee designee and administrator have provided documentation to satisfy the qualifications and training requirements identified in the administrative group home rules.

The staffing pattern for the original license of this 6-bed facility is adequate and includes a minimum of 2-staff-to-6 residents during the day and 1-staff-to-6 residents during the night. The applicant acknowledges that the staff –to- resident ratio will change to reflect any increase in the level of supervision, protection, or personal care required by the residents. The applicant has indicated that direct care staff will be awake during sleeping hours.

The applicant acknowledged that at no time will this facility rely on “roaming” staff or other staff that are on duty and working at another facility to be considered part of this facility’s staff to resident ratio or expected to assist in providing supervision, protection, or personal care to the resident population.

The applicant acknowledges an understanding of the qualifications, suitability, and training requirements for direct care staff prior to each person working in the facility in that capacity or being considered as part of the staff to resident ratio.

The applicant acknowledged an understanding of the responsibility to assess the good moral character of employees and contractors who have regular, ongoing, “direct access” to residents or the resident information or both. The licensing consultant provided technical assistance on the process for obtaining criminal record checks utilizing the Michigan Long Term Care Partnership website (www.miltcpartnership.org) and the related documents required to be maintained in each employee’s record to demonstrate compliance.

The applicant acknowledges an understanding of the administrative rules regarding medication procedures and that only those direct care staff that have received

medication training and have been determined competent by the licensee, can administer medication to residents. In addition, the applicant has indicated that resident medication will be stored in a locked cabinet and that daily medication logs will be maintained on each resident receiving medication.

The applicant acknowledges their responsibility to obtain all required good moral character, medical, and training documentation and signatures that are to be completed prior to each direct care staff or volunteer working directly with residents. In addition, the applicant acknowledges their responsibility to maintain all required documentation in each employee's record for each licensee or licensee designee, administrator, and direct care staff or volunteer and follow the retention schedule for those documents contained within each employee's record.

The applicant acknowledges an understanding of the administrative rules regarding the admission criteria and procedural requirements for accepting a resident into the home for adult foster care.

The applicant acknowledges their responsibility to obtain the required written assessment plan, resident care agreement, and health care appraisal forms and signatures that are to be completed prior to, or at the time of each resident's admission to the home as well as updating and completing those forms and obtaining new signatures for each resident on an annual basis.

The applicant acknowledges their responsibility to maintain a current resident record on file in the home for each resident and follow the retention schedule for all the documents that are required to be maintained within each resident's file.

The applicant acknowledges an understanding of the administrative rules regarding the handling of resident funds and valuables and intends to comply. The applicant acknowledges recording each resident's funds and itemized transactions including payment for services. The applicant acknowledges this document will be created for each resident to document the date and amount of the adult foster care service fee paid each month and all the resident's personal money transactions that have been agreed to be managed by the applicant.

The applicant acknowledges an understanding of the administrative rules regarding informing each resident of their resident rights and providing them with a copy of those rights. The applicant indicated that it is their intent to achieve and maintain compliance with these requirements.

The applicant acknowledges an understanding of the administrative rules regarding the written and verbal reporting of incidents and accidents and the responsibility to conduct an immediate investigation of the cause. The applicant has indicated their intention to achieve and maintain compliance with the reporting and investigation of each incident and accident involving a resident, employee, and/or visitor.

The applicant acknowledges their responsibility to provide a written discharge notice to the appropriate parties when a 30-day or less than 30-day discharge is requested.

D. Rule/Statutory Violations

Compliance with the licensing act and administrative rules related to the physical plant has been determined. Compliance with administrative rules related to quality of care will be assessed during the temporary license period.

VI. RECOMMENDATION

I recommend issuance of a temporary license to this adult foster care small group home with a capacity of 6.
