### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was found to be in non-compliance with the following rules:

**R 400.619                      Emergency preparedness plan.**

**(8) A licensee shall practice the emergency preparedness plan, including the fire safety plan, at least once a quarter per calendar year during each shift, 7 a.m. to 3 p.m., 3 p.m. to 11 p.m. and 11 p.m. to 7 a.m. A record of the practices must be maintained for 2 years.**

2026 fire drill records did not contain documentation that a 1st quarter fire drill was completed during sleeping hours.

**R 400.645                      Environmental health.**

(3) A licensee shall provide hot and cold running water under pressure. A licensee shall maintain the hot water temperature for a resident's use at a range of 105 degrees Fahrenheit to 120 degrees Fahrenheit at the fixture.

Water temperature exceeded 120 degrees Fahrenheit at the fixture in both bathrooms.

**R 400.685                      Resident admission; resident assessment plan; resident care agreement; health care appraisal.**

(9) A licensee shall review the written resident care agreement with the resident, resident's designated representative, or responsible agency at least annually or more often if necessary. Any changes to the resident care agreement must be re-signed by all applicable parties. If the annual review results in no changes to the resident care agreement the resident care agreement does not need to be re-signed but the licensee shall document that all applicable parties were contacted and agreed that no changes were necessary.

Written resident care agreements for Resident A and Resident B were not updated when the cost of care increased.

#### IV. RECOMMENDATION

Contingent upon receipt of an acceptable corrective action plan, renewal of the license is recommended.
