RE: License #: AS630337268
Rochester Home
4651 Rochester Road
Troy, MI 48085

Dear Ms. Patterson:

Attached is the Renewal Licensing Study Report for the facility referenced above. The violations cited in the report require the submission of a written corrective action plan. The corrective action plan is due 15 days from the date of this letter and must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific dates for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the licensee or licensee designee or home for the aged authorized representative and a date.

Upon receipt of an acceptable corrective plan, a regular license will be issued. If you fail to submit an acceptable corrective action plan, disciplinary action will result.

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, you may contact the local office at (248) 972-9136.

Sincerely,

A handwritten signature in cursive script that reads "Kristine Cilluffo".

- Fire safety equipment and practices observed? Yes No If no, explain.
- E-scores reviewed? (Special Certification Only) Yes No N/A
If no, explain.
- Water temperatures checked? Yes No If no, explain.
- Incident report follow-up? Yes No If no, explain.
- Corrective action plan compliance verified? Yes CAP date/s and rule/s:
CAP date 07/25/2024- AS205(3), AS301(4), AS301(8), AS306(3), AS312(4)(b),
AS401(2), AS403(1), AS403(12), AS403(5), AS410(1)(d), AS410(2) N/A
- Number of excluded employees followed-up? N/A
- Variances? Yes (please explain) No N/A

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was found to be in non-compliance with the following rules:

R 400.627	Licensee and administrator training requirements.
	(1) A licensee and administrator shall complete annual training based on the license issue date, the educational requirements specified in subdivision (a) or (b) of this subrule, or a combination that totals 16 hours: (a) 16 hours of training accepted by the department that is relevant to the licensee's admission policy and program statement.
Licensee Designee, Janet Patterson, did not have verification of 16 annual training hours for 2025.	
R 400.645	Environmental health.
	(3) A licensee shall provide hot and cold running water under pressure. A licensee shall maintain the hot water temperature for a resident's use at a range of 105 degrees Fahrenheit to 120 degrees Fahrenheit at the fixture.
During the onsite inspection, I measured the water temperature with a digital thermometer. The water temperature measured as high as 139.8 degrees Fahrenheit.	
R 400.647	Safety and maintenance of premises.
	(1) A facility must be constructed, arranged, and maintained to provide adequately for the health, safety, and well-being of occupants.
During the onsite inspection, I observed that the wooden handrails at back entrance were rotting and chipping.	
R 400.647	Safety and maintenance of premises.
	(15) Sidewalks, fire escape routes, and entrances must be kept reasonably free of hazards, such as ice, snow, and debris.

<p>During the onsite inspection, I observed broken concrete in driveway and at front entrance and step. I also observed crumbling stones at back entrance patio. The damaged concrete and stones are creating a trip hazard.</p>	
R 400.647	Safety and maintenance of premises.
	(5) Floors, walls, and ceilings must be cleanable, maintained clean, and in good repair.
<p>During the onsite inspection, I observed a hole in wall to the right of back entrance door.</p>	
R 400.655	Bathrooms.
	(3) Bathrooms must have doors with positive-latching, non-locking-against-egress hardware. Hooks, bolts, bars, and other similar devices are prohibited on bathroom doors.
<p>During the onsite inspection, I observed that Bathroom #1 and Bathroom #2 did not have non-locking-against-egress hardware on doors.</p>	
R 400.727	Smoke detection equipment for family home and small group home with 6 or less residents after March 27, 1980.
	(4) Detectors must be tested and examined as recommended by the manufacturer.
<p>During the onsite inspection, I observed that one of the home's smoke detectors was chirping throughout the inspection. The smoke detector needs maintenance.</p>	
R 400.731	Flame-producing equipment; enclosures.
	(2) Heating plants and other flame-producing equipment located on the same level as the residents must be enclosed in a room that is constructed of material that has a 1-hour-fire-resistance rating and has a door made of 1-3/4-inch solid core wood. The door must be hung in a fully stopped wood or steel frame and must be equipped with an automatic self-closing device and positive-latching hardware.
<p>During the onsite inspection, I observed that the fire door leading to furnace in kitchen was not functioning properly. The door was equipped with an automatic self-closing device, however, would not fully close. I also observed that the door was initially propped open with a brick. The door should remain closed.</p>	

IV. RECOMMENDATION

Contingent upon receipt of an acceptable corrective action plan, renewal of the license is recommended.
