III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was determined to be in substantial compliance with rules and requirements.

This facility was found to be in non-compliance with the following rules:

R 400.685 Resident admission; resident assessment plan; resident care agreement; health care appraisal.

(4) A written assessment plan must be completed with and signed by the resident or the resident's designated representative, responsible agency if applicable, and the licensee at the time of admission and annually thereafter. A licensee shall maintain a copy of the resident's most recent assessment plan on file at the facility for up to 2 years after discharge.

At the time of inspection, Resident A did not have a 2025 assessment plan completed.

R 400.685 Resident admission; resident assessment plan; resident care agreement; health care appraisal.

(9) A licensee shall review the written resident care agreement with the resident, resident's designated representative, or responsible agency at least annually or more often if necessary. Any changes to the resident care agreement must be re-signed by all applicable parties. If the annual review results in no changes to the resident care agreement the resident care agreement does not need to be re-signed but the licensee shall document that all applicable parties were contacted and agreed that no changes were necessary.

At the time of inspection, Resident A did not have a 2026 care agreement completed, nor was there documentation confirming that all applicable parties were contacted and agreed that no changes were necessary on the 2025 care agreement.

R 400.731 Flame-producing equipment; enclosures.

(1) If the heating plant is in the basement, standard building material may be used for the floor separation. Floor separation must also include at least 1-3/4-inch solid core wood door or

equivalent equipped with an automatic self-closing device to create a floor separation between the basement and the first floor.

At the time of inspection, I observed the fire door with gaps at the top and side preventing it from properly sealing and creating floor separation as required.

IV. RECOMMENDATION

Contingent upon receipt of an acceptable corrective action plan, renewal of the license is recommended.
