RE: License #: AS250015343
Boyle Group Home
222 Elizabeth Street
Montrose, MI 48457

Dear Jennifer Bhaskaran:

Attached is the Renewal Licensing Study Report for the facility referenced above. You have submitted an acceptable written corrective action plan addressing the violations cited in the report. To verify your implementation and compliance with this corrective action plan: *(choose one or more)*

- You are to submit documentation of compliance.
- You are to submit a Statement of Correction.
- An on-site inspection will be conducted.

The study has determined substantial compliance with applicable licensing statutes and administrative rules. Therefore, your license is renewed. It is valid only at your present address and is nontransferable.

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, you may contact the local office at (517) 643-7960.

Sincerely,

A handwritten signature in cursive script that reads "Christopher A. Holvey". The ink is dark and the signature is fluid.

Christopher Holvey, Licensing Consultant

N/A ☒
- Number of excluded employees followed-up? N/A ☒
- Variances? Yes ☐ (please explain) No ☐ N/A ☒

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was found to be in non-compliance with the following rules:

R 400.647 Safety and maintenance of premises.

(4) Roofs, exterior walls, doors, skylights, and windows must be weathertight and watertight and maintained in good repair.

The homes gutters were observed to be in poor condition and in need of repair/replacement. The home was missing several downspouts to push the water away from the foundation.

R 400.647 Safety and maintenance of premises.

(5) Floors, walls, and ceilings must be cleanable, maintained clean, and in good repair.

One resident bedroom had a large tear in the carpet. There were multiple stains on the carpet observed in different areas of the home.

R 400.715 Facility environment; fire safety, adoption by reference.

(1) A facility that has a capacity of 4 to 6 residents shall be equipped with an interconnected multi-station smoke detection system that is powered by the facility's electrical service. When activated, the system must initiate an alarm that is audible in all areas of the facility. The smoke detection system must be installed on all levels, including basements, common activity areas, and outside each sleeping area, excluding crawl spaces and unfinished attics, to provide full coverage of the facility. The system must include a battery backup to ensure that the system is operable if there is an electrical power failure and accommodate the sensory impairments of residents living in the facility, if needed. A fire safety system must be installed in accordance with the manufacturer's instructions by a licensed electrical contractor and inspected annually. A record of the inspections must be maintained at the facility for 2 years.

The home's fire alarm system could not be set off to confirm that all smoke detectors and alarms are working properly.

A corrective action plan was requested and approved on 06/24/2026. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify

compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

An acceptable corrective action plan has been received. Renewal of the license is recommended.

6/26/2026
