RE: License #: AM820009843
Carson Afc 1
7015 Tireman
Detroit, MI 48210

Dear Ms. Agee:

Attached is the Renewal Licensing Study Report for the facility referenced above. You have submitted an acceptable written corrective action plan addressing the violations cited in the report. To verify your implementation and compliance with this corrective action plan:

- An on-site inspection will be conducted.

The study has determined substantial compliance with applicable licensing statutes and administrative rules. Therefore, your license and special certification is renewed. It is valid only at your present address and is nontransferable.

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, you may contact the local office at (313) 456-0380.

Sincerely,

A handwritten signature in cursive script that reads "Shatonla Daniel".

208 (1 e, f, i) N/A ☐
- Number of excluded employees followed-up? N/A ☒
- Variances? Yes ☐ (please explain) No ☒ N/A ☐

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was found to be in non-compliance with the following rules:

R 400.639

Staff records.

(1) A licensee shall maintain a record for each staff that contains all of the following:

(i) Verification of the receipt by the staff of personnel policies and job descriptions.

At the time of inspection, Staff- Veronica Rose and Staff- Carnique Hickey employee files did not contain verification of the receipt of personnel policies.

R 400.645

Environmental health.

(3) A licensee shall provide hot and cold running water under pressure. A licensee shall maintain the hot water temperature for a resident's use at a range of 105 degrees Fahrenheit to 120 degrees Fahrenheit at the fixture.

At the time of inspection, I observed the hot water temperature in both resident bathrooms to be at 130 degrees Fahrenheit at the fixture.

R 400.647

Safety and maintenance of premises.

(4) Roofs, exterior walls, doors, skylights, and windows must be weathertight and watertight and maintained in good repair.

At the time of inspection, I observed soffit and fascia on the left side of the facility to be opening with exposed rotting wood.

R 400.657

Bedrooms.

(4) Interior doorways of a resident bedroom must be equipped with a side-hinged, permanently mounted door that is equipped with positive-latching, non-locking-against-egress hardware.

At the time of inspection, I observed two resident bedroom doors that were not equipped with positive latching and one resident bedroom door not properly closing.

R 400.715 Facility environment; fire safety, adoption by reference.

(4) Evacuation assessments must be conducted within 30 days after the admission of each new resident and at least annually after the admission of the last new resident. A licensee shall forward a copy of each completed assessment to the responsible agency and retain a copy in the facility for 2 years. A facility that is assessed as having an evacuation difficulty index of "impractical" using appendix f of the 2021 edition of NFPA 101, Life Safety Code, which is adopted by reference in subdivision (b) of this subrule, shall have a period of 6 months after the date of the finding to do either of the following:

(a) Improve the score to at least the "slow" category.

(b) Bring the facility into compliance with the physical plant standards for "impractical" facilities contained in chapter 33 of the 2021 edition of NFPA 101, Life Safety Code. NFPA 101, Life Safety Code, 2021 edition is adopted by reference and available to purchase on the National Fire Protection Association website at [https:// www.nfpa.org](https://www.nfpa.org) at a cost of \$168.00 for nonmembers of the NFPA and \$151.20 for NFPA members at the time of adoption of these rules. A copy of NFPA 101 is available for inspection and distribution from the Bureau of Community and Health Services, Department of Licensing and Regulatory Affairs, 611 West Ottawa Street, P.O. Box 30664, Lansing, Michigan 48909 at a cost of 15 cents per page as of the time of the adoption by reference of NFPA 101.

At the time of inspection, licensee designee did not complete a evacuation assessments for 2025 and 2026.

A corrective action plan was requested and approved on 06/26/2026. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license and special certification.

IV. RECOMMENDATION

An acceptable corrective action plan has been received. Renewal of the license is recommended.
