II. Purpose of Addendum

The purpose of this addendum is to make the living room smaller to add a resident bedroom to the main floor of the facility. The resident bedroom will be single occupancy.

III. Methodology

08/04/2026	Text message received from Licensee Designee Virtrina Johnson
08/04/2026	Sent text message to Virtrina Johson
08/11/2026	On-site inspection conducted
08/11/2026	Received updated floor and evacuation plans

IV. Description of Findings and Conclusions

On August 4, 2026, I received a text message from Licensee Designee Virtrina Johnson indicating they are adding a resident bedroom to the main floor of the home. The living room will be shortened by installing a wall to make the new resident bedroom. Licensee Designee Johnson requested an on-site inspection.

On August 4, 2026, I sent an email to Licensee Designee Johnson regarding the date the of on-site inspection.

On August 11, 2026, an on-site inspection was completed, and room measurements were completed. One resident bedroom with single occupancy will be added to the main floor of the home and this bedroom measures 10” x 9’11.5 and equals 100 square feet. The resident bedroom was noted to have non-locking against egress hardware. The living room is now measured to be 9’5” x 12’11”. There is a sitting room that measures 15’7” x 13’6.5”. The living room and sitting room measure 327 square feet, which is adequate for 6 residents.

On August 11, 2026, update floor plan and evacuation plan was received from Licensee Designee Johnson.

V. Recommendation

I recommend licensure of a sixth resident bedroom on the main floor with single occupancy.
