II. Purpose of Addendum

You requested the capacity be increased from a maximum of five residents to six residents.

III. Methodology

On 9/16/04 Document received from Licensee requesting capacity increase.
On 10/05/04 On site inspection completed to verify all furniture was in place for the capacity increase.

IV. Description of Findings and Conclusions

This home was originally designed for six residents and has been licensed in the past for six residents. The licensee had decreased the capacity when the needs of the residents had changed a few years ago. At this time the Licensee would like each bedroom to be double occupancy rooms. The on site inspection of 10/05/04 found the home to be in full compliance with the licensing rules. It is recommended that the capacity of this license be increased from five residents to six residents effective immediately.

V. Recommendation

The capacity of this small group Adult Foster Care home will be increased to six residents effective immediately.
