III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

The Facility is a single story ranch home located in the City of Oak Park Michigan, Oakland County. The neighborhood is characterized with similar structures throughout the neighborhood. The facility is located within one mile of neighborhood strip malls located along Greenfield Road. There are several convenient shopping outlets and strip malls in the area. The home has four-bedrooms. In addition to the bedrooms, the home has a kitchen, dinning room and a large living room. Outside of the kitchen, these areas contain 346 square feet of multipurpose space to accommodate six residents.

There are two bathrooms to accommodate the residents and staff. Both the hot water heater and furnace are located in the basement. At the top of the stairs leading to the basement, there is an inch and three quarter solid core hard wood door with a self-closing device for adequate fire safety enclosure. There is a make-up air duct in the furnace room to prohibit combustion from occurring.

The bedrooms are designated as follows:

- Bedroom #1 contains 92 square feet and will accommodate one resident.
- Bedroom #2 contains 115 square feet and will accommodate one resident.
- Bedroom #3 contains 171 square feet and will accommodate two residents.
- Bedroom #4 contains 105 square feet and will accommodate one resident.

The facility is served by both public sewer systems thereby negating the need for an Environmental Health Inspection. During the inspection of 12/05/2006, the water temperature measured 116 degrees Fahrenheit at the kitchen tap.

On 12/05/2006, the consultant conducted a fire safety inspection and found the facility to be in full compliance with applicable Fire Safety Rules and Regulations. The home is equipped with an electrically powered interconnected hard-wired smoke detection system that is audible in all sleeping rooms with the doors closed. There are two approved fire extinguishers on the ground floor and one in the basement of the facility.

Zoning approval is not required for this facility as it meets the provisions of the Federal Fair Housing Amendments Acts.
