II. Purpose of Addendum

The purpose of this Addendum to the Original Licensing Study Report is to increase the capacity of this facility from 2 to 3 residents.

III. Methodology

On November 21, 2008, this consultant received a *Request for Modification of the Terms of the License* from licensee Donna Ptak, requesting that the capacity of the facility be increased to three residents.

On November 21, 2008, this consultant conducted an onsite inspection of the facility.

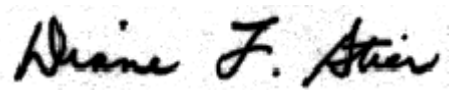

IV. Description of Findings and Conclusions

The licensee added a bed and dresser to one of the two resident bedrooms in this facility. This "South" bedroom is noted in the Original Licensing Study report as measuring 13.83' x 9.5' and being suitable for 2 residents, although at the time of original issuance the licensee preferred to have a capacity of only 2.

The 669 sq. ft. of living space in the home provide sufficient living space for 3 residents and the licensee, spouse and daughter living in the home.

V. Recommendation

I recommend that the capacity of this facility be increased to 3 residents.
